LAS VEGAS WITHOUT CANDIDATES FOR OFFICE, BUT HAS BIG VOTE

Larrazolo, Formerly of El Paso Would Run for Supreme Court Justice But Would Decline Nomination For Attorney General; Secundo Romero Favorite in That Section For Governor of the State.

BY GUTHRIE SMITH.

LAS VEGAS, N. M., May 26.—All former reports to the contrary notwithstanding, Las Vegas today does not contain a single avowed candidate for one of the state offices. Secundo Romero is an avowed candidate; not only avowed, but active, and he does live in Las Vegas, but he is now out on one of his ranches. The development of the fact that three of the supposed candidates are not candidates, certainly will break up tentative tickets.

"I have not announced my candidacy, and I will not do so," said D. A. Larrazolo, who has been spoken of for the Republican nomination for the supreme court. My friends have said that I might be an available candidate, but I have not sought the nomination. If the nomination should be given to me by the convention, I would accept it.

"Would you consider the nomination for the office of attorney general, in the event that the supreme court nomination should not be tendered to you, Mr. Larrazolo?"

"No, I would not," he answered. "I would be glad to accept the nomination for the supreme court, but the other one I would not."

"Would you be attorney general?"

"No, I would not," he answered. "I would be glad to accept the nomination for the supreme court, but the other one I would not."

THE FOREMOST Foe OF TUBERCULOSIS
is a right combination of fresh air, pure food, rest and clean living. All doctors agree these are prime requisites in the treatment of this affection, which causes one-tenth of all deaths. Yet medication is needed in many cases. Under such circumstances, Eckman's Alternative may prove beneficial. When used as an adjunct to proper care and hygiene it is most efficacious. It has been found equally effective in treating asthma and bronchial troubles. Stubborn colds often yield to it. In any event, a trial can do no harm. For this preparation contains no poisonous or habit-forming drugs—no narcotics, opiates or coal-tar derivatives. At your druggist's.

The Self Starting Auto made "cranking up" look foolish, didn't it?
That's just the way old methods of setting the Typewriter carriage have been made to look by the latest

Self Starting Remington

SETTING the typewriter carriage by hand is just like "cranking up." On every typewriter but this latest Remington you have got to "crank up" about a dozen times for every letter you write. And every time you "crank up" you lose four seconds by the watch.

The Remington Self Starter (Column Selector) cuts out this time loss. One touch on a Self Starter key and the carriage darts instantly and to the mark at the correct starting point. It leaves nothing for the operator to do but just—WRITE.

25 per cent. speed gain in letter writing results from the use of the Self Starter. We have proved this by countless tests. And if you will say the word we will gladly prove it to you. Call at our office any time and ask to see a demonstration.
